

# Programmable Electronic Timer

# 42E724P

## OVERVIEW

The MarkTime® 42E724P Programmable Electronic time switch replaces single-pole switches to ensure cost and energy savings, security and convenience. It's quiet; low profile design has an array of features to program for to-the-minute, 24-hour, 7-day control.

## APPLICATIONS

The MarkTime® 42E724P Programmable Electronic time switch easily suits the needs of residential and light commercial applications. This programmable time switch is designed to automatically energize a light, fan, or small appliance load on a daily basis (or other combination of days).

## FEATURES & BENEFITS

- Programming allows for 7 Available ON/OFF Programs for cost and energy savings, security and convenience.
- Manual Pushbutton Override provides manual ON/OFF switching at any time for added convenience.
- Manual switch for disabling timer completely for added security.
- Internal Battery Backup protects memory in the event of power outages.
- Fits standard wall box and replaces a single-pole wall switch for fast easy installation.
- Slim design blends in with wall plate for a discreet appearance.
